

# **MyHealth Access Network: Building a Laboratory for Community Health Assessment and Improvement**

**David Kendrick, MD, MPH**

**University of Oklahoma  
School of Community Medicine**

**Friday, May 10<sup>th</sup>, 12:15-1:15**

**OSU Tulsa**

**North Hall, Room 220**

Simulcast to ITLE 126 in Stillwater. Lunch provided in Tulsa.

At the conclusion of this seminar participants will be able to:

- 1. Describe the functions of EHR's, HIE's and community-wide care coordination and the implication for health systems and family research.
- 2. Understand the significant changes occurring in the healthcare delivery system, particularly around payment reform and ways in which MyHealth analytics services can assist in research.
- 3. Consider the implications of a community wide resource for health assessment and improvement for their own research.

*Seminar Series co-sponsored by*

**Center for Family Resilience, OSU-Tulsa  
& OSU Center for Health Sciences**
